PROFESSIONAL SUMMARY

Innovative AI/ML Engineer with 3+ years of experience in PyTorch, TensorFlow, Scikit-Learn, and LLM fine-tuning. Proven expertise developing machine learning pipelines, deep neural networks, computer vision, and NLP models. Passionate about MLOps, model quantization, and deploying containerized inference APIs with Docker on GPU clusters.

TECHNICAL SKILLS

- Core Technologies: Python, PyTorch, TensorFlow, Scikit-Learn, Keras, Hugging Face, Transformers
- ML & Data: Deep Learning, NLP, Computer Vision, Pandas, NumPy, Matplotlib, SQL, Feature Engineering
- MLOps & Infrastructure: Docker, Linux, Git, GPU Optimization, Flask, FastAPI, AWS, REST API
- Methodologies: Model Evaluation, Hyperparameter Tuning, Clustering, Classification, Agile

WORK EXPERIENCE

Machine Learning Engineer | Visionary AI Labs (2022 - Present)

- Designed and trained convolutional neural networks and vision transformers for defect detection, achieving 96% accuracy.
- Fine-tuned large language models (LLMs) using LoRA and Hugging Face to automate enterprise document classification.
- Reduced inference latency by 38% through model pruning, quantization, and ONNX runtime optimizations.
- Built automated CI/CD evaluation pipelines validating regression benchmarks across 50,000+ test samples.

AI Research Associate | DataTech Insights (2021 - 2022)

- Implemented predictive modeling pipelines using Scikit-Learn, Pandas, and XGBoost for churn forecasting.
- Conducted exploratory data analysis (EDA) and built interactive telemetry dashboards.

EDUCATION

Master of Science in Artificial Intelligence | University of Washington (2019 - 2021)
Bachelor of Science in Electrical Engineering | Purdue University (2015 - 2019)

PROJECTS & CERTIFICATIONS

- Autonomous Vision Tracking: Open-source PyTorch object tracker with 1,200+ GitHub stars.
- AWS Certified Machine Learning Specialist | DeepLearning.AI Specialization Certificate
